

Rest Assured

with Kooi Camera Surveillance

Why choose Kooi as your camera security expert

At Kooi, we are more than just a security provider—we are your trusted partner in safety and peace of mind. As a leading European expert in temporary, mobile, and innovative security solutions, we operate in over 25 countries, with 300+ dedicated specialists across the Netherlands, Belgium, Germany, France, Spain, Italy, Denmark, and Sweden.

Undisturbed peace of mind thanks to Kooi

We believe security should be effortless. That's why we provide temporary, mobile camera surveillance with high-quality equipment and no hidden costs. Our operators respond to alarms in just 9 seconds, deterring 99% of intruders before they can cause damage. In addition, every customer benefits from a dedicated project manager for seamless support.

Security solutions for every sector

Our advanced mobile camera unit, the Unit For Observation (UFO), provides proactive surveillance by detecting suspicious activity early, ensuring the security of your construction site or premises. Additionally, our Rising Early Detection (RED) system specializes in heat detection to prevent fires in the recycling industry before they can develop.

A few advantages of our RED smoldering and fire detection at a glance

At Kooi, we operate sustainably, always considering the environmental impact of our work. We focus on energy efficiency, waste reduction, and the use of renewable resources, contributing every day to a more sustainable future.

✓ **Fast security**

Our security solutions are deployed quickly to ensure your site is protected as soon as possible, minimizing risks and downtime.

✓ **All-inclusive price**

Our pricing covers surveillance, support, and emergency response, so you get a hassle-free experience with no hidden costs.

✓ **24/7 Kooi Alarm Center**

Our dedicated alarm center monitors both UFO and RED systems. In the event of an incident, you will receive a detailed report the next day.

✓ **Live view**

Watch live footage of your project 24/7 and easily adjust security schedules through our user-friendly Kooi App or online portal.

✓ **Premium quality & sustainability**

Our RED system and power supplies are self-sustaining, sustainable solutions, fully certified and compliant with the highest standards of quality and safety.

✓ **Average response time after notification**

Our operators accept an alarm notification within an average of 9 seconds. This way, you are assured of fast and effective action when it really matters.

✓ **Improved alarm protocol**

Immediate clarity on the first and second points of contact in emergencies. Our Kooi Alarm Center instantly identifies who needs to be notified, saving valuable time and ensuring a swift response from emergency services.

Facts & Figures

Our strength lies in the complete security solution and removing concerns. Always with a focus on the optimal collaboration between people and technology.

The image features a background of a construction site at sunset. An excavator is visible on the left, working on a dark, uneven ground. The sky is a warm orange color. The KOOI logo is centered in the image, consisting of a stylized icon and the word "KOOI" in a bold, italicized font. Two thin red lines curve across the image, framing the logo.

 ***KOOI***
